Memorandum of Understanding between Curry College and Labouré College of Healthcare

March 9, 2026

Labouré College ("Labouré") and Curry College ("Curry") have entered into an Agreement to Acquire the Labouré Transitioned Programs and Establish the Labouré Center for Advancing Healthcare Opportunity at Curry College (the "Agreement"), by which, among other agreements, students in Labouré's RN to BSN program may transfer to Curry and complete their degrees in Curry's RN to BSN program.

Labouré and Curry, both institutions of higher education accredited by the New England Commission of Higher Education, enter into the following Memorandum of Understanding supporting the transfer of RN to BSN students currently enrolled at Labouré to complete their program of study and to provide for a smooth and seamless transfer to Curry. Both Labouré and Curry understand that the terms enumerated herein should serve as guidelines to foster student success.

Specifically, Labouré and Curry agree to the following:

1. Curry offers courses of study toward a baccalaureate RN to BSN degree for which Curry is already approved and accredited. Pursuant to the Agreement, Labouré RN to BSN students may transfer into Curry's RN to BSN degree program and Curry confirms the following agreements in connection with their transfer:

    a. Curry will waive admission application fees for RN to BSN students applying to transfer from Labouré.
    b. Curry will accept and enroll Labouré RN to BSN students who are in good academic standing and are not subject to serious academic or community conduct matters at Labouré as of the Closing Date of the Agreement.
    c. Curry shall not charge out-of-pocket costs, including tuition and mandatory fees, to any Labouré student transferring into the Curry RN to BSN program in excess of the out-of-pocket costs charged by Labouré to the transferring student for the 2026-2027 academic year.
    d. Labouré students who have fulfilled either of the following conditions will not be required to complete Curry's general education requirements and will be considered to have satisfied all general education requirements for the Curry RN to BSN program:
        i. Students who have competed all core requirements of Labouré's RN to BSN program at Labouré; or
        ii. Students who have completed the equivalent of Curry's general education requirements as reviewed and certified by the Curry Registrar.
    e. Labouré students will not be required to have a minimum of 30 credits in residence as Curry matriculated students to graduate from Curry.
    f. Curry will accept and compute into each student's GPA all letter and numerical grades for coursework as they appear on the Labouré transcript. Those courses and grades will appear on each student's Curry transcript as Labouré coursework.

2. Any Labouré student who fails to apply, be accepted, and enroll at Curry by September 2027 shall be excluded from this MOU.

3. Curry shall provide academic support to Labouré RN to BSN students transferring to Curry and shall ensure that Labouré students are able to register for the classes they need or authorize appropriate substitute courses to complete the Curry RN to BSN program.

4. Curry will conduct a special orientation for transferring Labouré students transferring to the RN to BSN program to answer questions, provide advising, and complete course registration.

5. Labouré will announce it has reached an agreement with Curry and will provide information to students, staff, and parents about the existence of this MOU and the information contained in the MOU.

6. Labouré and Curry will provide direct links between their institutional websites, indicating the existence of this MOU.

7. Labouré and Curry will cooperate to exchange data and documents that will contribute to the maintenance and improvement of these transfer arrangements and promote effective cooperation between the two institutions. In particular, Labouré will provide Curry with admissions, grades, and financial aid data after obtaining appropriate permission from the students seeking to transfer to Curry's RN to BSN program. All data will be shared in compliance with applicable laws and U.S. Department of Education and Massachusetts Department of Higher Education guidelines.

8. Curry staff will meet with Labouré students and staff on Labouré's campus to provide information to RN to BSN students about transferring to Curry and work with students and staff to support students transferring to Curry.

9. This MOU shall terminate upon the first of the following events:

    a. All Labouré RN to BSN students accepted by Curry pursuant to this MOU have either graduated from Curry or failed to maintain continuous enrollment at Curry; or
    b. May 31, 2030.

In WITNESS WHEREOF, the parties have executed this MOU on the date indicated:

Attachment B: CURRICULUM MAP

Curriculum maps must be completed by both the closing institution and the receiving institution. The receiving institution should make considerations for how credit may be awarded for non-equivalent core and elective courses, as well as for students who have not yet completed their general education requirements. Please be sure to disclose any additional requirements needed for students to complete their degree at the receiving institution.

Prerequisites, co-requisites, other requirements or benchmarks:

Students entering the Curry College RN-BS program must complete the following courses or transfer equivalency:

- MATH 1150: Statistics I (or transfer equivalency taken at Labouré or elsewhere) is required to be completed prior to taking NSG 3042 Evidence for Nursing Practice for the RN student

- The below Curry College courses or their equivalent at Labouré or elsewhere must be completed prior to taking Curry College course NSG 3132 Population Health in the Community for the RN student:
  - BIOL 1075: Anatomy & Physiology I
  - BIOL 1175: Anatomy & Physiology I Lab
  - BIOL 1085: Anatomy & Physiology II
  - BIOL 1185: Anatomy & Physiology II Lab
  - BIOL 2010: Microbiology with Lab
  - PSY 2400: Human Growth and Development

*NSG 2100: RN Transitions to Baccalaureate Nursing is a prerequisite for all other Nursing courses in the RN to BS curriculum. Upon successful completion of NSG 2100 RN to BS students are awarded 34 Nursing transfer credits from their pre-licensure RN program.

**Students who transfer to Curry College with an earned Associate's degree are not required to complete general education requirements per College policy published in the Course Catalog. See Transfer Student Requirements in the Academic Policies and Procedures section of the Curry College Catalog which can be found online at https://catalog.curry.edu/app.

***Students who transfer to Curry College are required to have completed 120 credits to earn the Bachelor's Degree through a combination of credits in the RN-BS program and credit for college-level academic work combined.

Labouré Student Transfers

A. *Transfers*. Curry agrees to accept for the 2026-2027 academic year and enroll those Labouré students enrolled in the Labouré Transitioned Programs at Closing who wish to accept such enrollment (those students who enroll at Curry are collectively referred to as the "Labouré Transferred Students"). Curry reserves the right to decline enrollment to any Labouré student with a documented history of egregious conduct, such as sexual harassment, sexual misconduct, discrimination, commission of a crime, plagiarism, embezzlement, fraud, breach of fiduciary or other duty owed Labouré, or other serious misconduct.
B. *Credits.* In accordance with the transition agreement between Curry College and Labouré College of Healthcare, Curry shall accept all academic credits earned by Labouré Transferred Students or Labouré-approved transfer credits toward the equivalent Labouré Transitioned Programs at Curry.
C. *Continuity for the Labouré Transferred Students.* Each Labouré Transferred Student will be able to complete his or her Labouré Transitioned Program, including any general education courses needed to complete the applicable degree, at Curry in the same method of delivery in which they enrolled at Labouré.
